

XFLOW

Computational Fluid Dynamics

New Pay-Per-Use License

PROBLEM

You have a short term project where annual or perpetual software usage is not required

SOLUTION

XFlow PPU adapts to the duration of your project

PROBLEM

You have a small budget which restricts the purchase of annual or perpetual software

SOLUTION

XFlow PPU is a cost-efficient alternative to standard licensing models

PROBLEM

You have an undefined or variable workload which requires flexible use of software

SOLUTION

XFlow PPU is totally flexible and adapts to your usage requirements

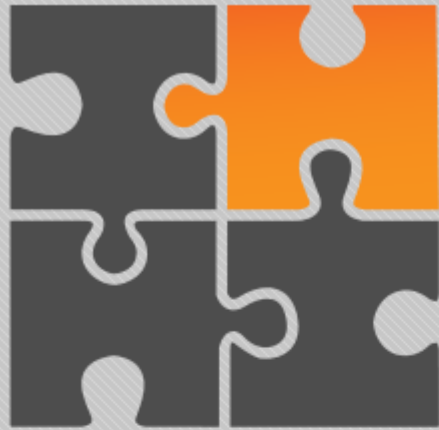

PROBLEM

You work on a project-by-project basis where capital investment in purchasing software is a problem

SOLUTION

XFlow PPU allows you to tie software costs directly to each project

PROBLEM

You need occasional use of alternatives to your current CFD software

SOLUTION

XFlow PPU allows easy adoption of an alternative solution to your CFD needs
